WATER DESALINATOR

Experience the freedom to explore beyond the horizon with the unwavering strength and extraordinary range of twin 7.6L V12 600hp Verado outboard engines. The latest advancement in legendary propulsion from Mercury, the engines are available as an optional upgrade to the Sundancer® 370 Outboard. They feature an independently steerable gearcase and contra-rotating propellers to enhance handling and deliver seamless control. With the ability to operate for up to 200 hours between regular service, maintenance is minimized. Combined with Mercury’s sophisticated Next Gen Digital Throttle & Shift (DTS) system, and unmatched sound-dampening technology, the 600hp Verado engines impress at every speed.

The helm is equipped with a Digital Dash for confident command offering dual 16" Simrad® NSO evo3 touchscreen displays with Active Trim control & monitoring. A gas-assisted portside glass door makes transitioning from the cockpit to the bow effortless. The bow features C-shaped seating with foldable armrests. Add an optional teak table to convert it to a dining space or an optional filler cushion to create a sun lounge. With plenty of seating, the cockpit features a wet bar and teak port table. Options include a Kenyon grill, refrigerator and teak starboard table. The convertible transom seat easily transitions from a hard-back surface to an aft-facing seat.
