Description

This 2018 Axopar Brabus Line 28 presents an outstanding opportunity to secure one of the most sought-after premium adventure boats on the market. Being one of the first of the updated hull designs with higher sides compared to earlier 2017 models, this example delivers a noticeably drier and more comfortable ride offshore while maintaining the sleek styling and versatility the Axopar range is known for.

Powered by twin Mercury 200hp Verados with approximately 500 hours, this Brabus Line has just undergone major servicing on both engines, including new trim motors, along with fresh antifoul and a full detail, presenting ready for immediate use.

Designed for both entertaining and serious day boating, this example is exceptionally well optioned with twin Simrad chartplotters, radar, AIS, sounder, bow thruster and live bait tank, making it equally capable offshore or cruising Sydney Harbour. New external upholstery and covers, combined with UDeck throughout, give the vessel a fresh and modern presentation.

The versatile deck layout offers excellent social space both forward and aft, complemented by removable poles and sun covers for additional shade when entertaining at anchor. Below deck, the double cabin and forward head compartment provide practical overnight capability rarely found in a vessel of this size.

Blending Scandinavian design, performance and usability, the Axopar 28 Brabus Line has become a benchmark in the premium adventure boat category — equally suited to harbour cruising, offshore runs, entertaining or watersports.
